"THAT DEVIL QUEMADO"

Synopsis

The little border town of Sonora has long vacillated between fear of and respect for "Quemado", a mysterious character who lives in a mountain fastness and descends with disconcerting suddenness to right some wrong or turn some daring trick. Right from under the nose of Saunders, a gambler and murderer, he kidnaps little Conchita Ramirez, whose father insists that she marry the desperado. Joanna Thatcher, daughter of a wealthy easterner who is sojourning on his western ranch, sees Quemado swirl into town and take the trembling girl, bedecked in her wedding veil, right out from the middle of a marriage ceremony. Ned, her hypochondriacal brother, also witnesses the feat, as does Gretoirix, a rich young n'er-do-well who hopes to marry Joanna.

Quemado is known to Thatcher, Joanna's father, and has been in Gretoirix's class at college before he became a sort of Don Quixote along the border. He meets Joanna and is immediately infatuated with her, promising that he will abduct her at his earliest convenience. This enrages the proud girl; but she nevertheless feels a certain respect for Quemado's fearlessness. Saunders and some of his men manage to kidnap Juan Gonzales, one of Quemado's retainers; and in the fight which takes place Juan is made to believe that he has killed one of his attackers. He is tried for murder; and in fear of his redoubtable master, Quemado, the court is held in the jail. But Quemado masquerades as the "corpse", saves his henchman and makes good his escape. Shortly thereafter, discovering that Joanna is going to marry Gretoirix, Quemado makes good his promise to Joanna and abducts her; but only after the minister has started to marry them. Saunders, in his attempts on Quemado's life, is foiled, and Gretoirix, who has been discovered by Ned Thatcher kissing the Mexican servant girl, is thoroughly discredited. Incidentally, Ned finally sprouts a lot of unexpected manhood and kicks Gretoirix soundly right where it will do the most good.
